

ASHLEY S. CAMPBELL AWARD

The College of Engineering ASHLEY S. CAMPBELL AWARD was established in 1979. The purpose of the award is to give recognition to a faculty member who has, by his/her activities, achievements, and scholarship brought distinction to the education of engineering students. Selection of the recipient shall be made each year with presentation of the award being made at the College Recognition Banquet.

Nominations shall be solicited from all sources by the College Recognition Committee. The basic criteria to be used in making nominations and by the Selection Committee are:

1. Teaching effectiveness.
2. Achievements in engineering, research, and public service.
3. Professional and scholarly accomplishments.

History of the Edward T. Bryand Recognition Ceremony

In 1979, Dean Jim Clapp organized the College Recognition Committee with all engineering departments, physics and chemistry to serve on the committee. The first College Recognition Banquet was held in 1980. Criteria were established for two awards: Ashley S. Campbell Award and the Edward T. Bryand Distinguished Engineering Award. Other awards for individuals and students were added thru the years and the awards have continued every year since 1980.
